As you read through my newsletter remember that all smallmouth bass , northern pike, and musky are catch and release only. I do allow my customers to keep walleye, rock bass, and channel cats if they wish.

Jan 2: The air got up to 40 and partly sunny today so I took the rod and went to the river without the boat. Don't know the water temp, but it was light stained. The wind was up around 15MPH which made fishing a bit difficult but I managed to land 5 nice smallies and a walleye. Case Magic Sticks and my own hair jigs caught the fish.

Jan 4th: Went fishing with Moe and Larry today. You see I was supposed to be Curly as in The Three Stooges because Moe and Larry were supposed to be somewhere else than fishing with me. It was a great day for January, the sky was sunny, the air temp got up to 49 degrees. The water was light stained and 36 to 38 degrees. We caught 18 fish today, 13 walleye and 5 smallies, most all on hair jigs. Moe had the hot stick as he caught most of the fish on a hair jig he had made. There were 2 trophy smallies and 1 trophy walleye caught. We had fun!

April 3rd: Went fishing today with JigerJim for about four hours. The sky was partly sunny and the water was high, dark stained, and fast. My temp gauge didn't work so I can't tell you the temp. The access had about three inches of mud on it. We caught 23 fish, with 2 white suckers, and a small carp in the mix. There were 3 trophy smallies caught with Jim getting a nice 18 1/2" smallie, the first fish of the day ended up being the biggest fish also. Tube jigs were the main lure of the day. It's great to be back on the water again.

April 5th: Got up, took a broom and removed the snow from the boat. Fished with Bob and Fran Enck today. The sky was overcast with snow flurries and a air temp of 34 degrees along with a 15 to 20 MPH wind. You bet that's some tough conditions. We fished about 3 hours, caught 19 fish with 2 nice walleye in the mix and 4 trophy bass, a 17"er being the biggest. Fran caught a nice walleye about 24" long. Good thing they're not in season or that would have been a couple of meals. It was indeed cold, but we had fun.

April 6th: Went fishing today with Pat Giombetti and Val Larioni. I had to take the shovel to get the snow out of the boat this morning. The sky was overcast and flurries, the air temp never got above 38 degrees. The water was dark stained and 39 degrees. We fished for 6hrs and caught 25 fish with two walleye in the mix. There were six trophy smallies, the biggest was a little over 17". The good thing was the deep mud at the access was frozen this morning, but not when we left this afternoon.

April 7th: Ya know, this is the first spring that I can remember that the water got colder each day instead of warmer. Went fishing today with Ed Nestor and Barry Buchecker. The sky was overcast with flurries (we had a whiteout at one time) and the water was stained and 36 DEGREES! Needless to say that the fish were sluggish! We caught 20

smallies today, but 16 of them were over 15"! Ed got the big fish of the day with a nice 18 3/4" smallie. Tube jigs caught the majority of the fish. We also found a boat that the last high water left on an island. I called the boat numbers in to the local WCO and they will track down the owner.

April 8th: Went fishing with Kevin Readinger and Paul and Kurt Bornmann. Another cold and windy day with snow flurries. We caught 15 fish with 6 trophy smallies in the mix. The water was stained and 36 degrees. Tube jigs caught the fish.

April 9th: Went fishing with John Snyder and Evan Gill. Can the water get any colder without turning to ice! The sky was overcast with flurries and the water stained and 35 degrees! The bite was extremely light. We caught seven fish with a nice 24" walleye that John caught. Evan had a muskie about 38" long on for about ten minutes, got it close to the boat a couple of times before it bit off the line. Tubes and stick worms caught the fish today. COME ON WARM WATER!

April 11th: Went fishing today for 4 hours with Joe Stevko and Ken Braren. This is the first time I've seen the sun out in a week. The sky was sunny and the water stained and 36 degrees. We caught 14 fish with one walleye in the mix. Tube jigs and stick worms caught the fish.
